[2] Affiliation
[3] Affiliation
* Email address of the corresponding author

**Abstract**

*Inset your abstract here. Make sure that the abstract properly reflects your work and is limited to 200 words.The abstract should be the point-of-entry for the scientific paper.*

**Keywords:** *keyword 01, keyword 02, keyword 03, keyword 04 and keyword 05*

# 1 Section

Include section 01 here.

In order to start a new paragraph always use the relevant command in LaTex.

You can include subsections too.

## 1.1 Subsection

More subsections can be included.

## 1.2 Subsection

# 2 Section

Label all the equations in your manuscript unless it is an exceptional case.

$$x^2 + y^2 + z^2 = 1 \tag{1}$$

You may include figures, tables etc, they all should be captioned properly. Also you can include tables.

Add references manually to the manuscript.
