

Certificate in practical skills in Immunology and Molecular Biology Intake 2 - 2025

**Course fee
Rs. 35000**

Rs. 5000 off

for those who have followed the Advanced
Certificate Course in Immunology and
Molecular Biology offered by the CIMB

> For whom

- Advanced level Biology Teachers
- Prospective students in Biomedical Sciences
- Scientists, analysts & technical officers in medical laboratories
- Researchers and any other individuals

> Eligibility Criteria

Five passes in the General Certificate of Education (Ordinary level) including science and English

> Course content

Differential counting of WBC | Blood typing | Hemagglutination | Immunochromatography | Western blotting | ELISA | Immunodiagnostic applications | DNA extraction | DNA quantification | PCR optimization | Agarose gel electrophoresis | Molecular Diagnostic applications | Bacterial transformation | Nanopore sequencing

Medium of Instructions: English

A certificate will be issued upon successful completion of the course

4 DAYS (onsite)

Weekends
from 9 am to 5 pm

Duration
July 19, 20, 26, 27 - 2025

Application deadline
July 17, 2025
